

Eicher 485: A Powerful Utility Tractor by TractorGyan

When you're searching for a dependable 45 HP tractor with solid build and versatile performance, the [Eicher 485](#) Super DI from TractorGyan is worth your attention.

Essential Specifications

- **Engine:** 45 HP with a 3-cylinder air-cooled engine displacing 2,945 cc.
- **Transmission:** Offers 8 forward + 2 reverse gears via a central-shift gearbox that combines constant-mesh and sliding-mesh or side-shift types.
- **Clutch:** Both single- and dual-clutch options are available.

Performance & Build

- **Lifting Capacity:** Rated to lift about 1,650 kg, making it suitable for medium-duty implements.
- **Brakes & Steering:** You get sealed dry-disc brakes, or multi-disc oil-immersed brakes. Steering options include mechanical or power steering.
- **Fuel Tank:** Holds approximately 48 litres for longer run times without frequent refuelling.

Pricing & Suitability

- **Price Range in India:** About ₹6.40 lakh to ₹6.70 lakh (on-road).
- Its configuration makes it a solid choice for farmers who need enough power, decent lifting load, and reliable transmission without going into very heavy-duty tractors.

Why Eicher 485 Stands Out

Because it balances mid-level power with durable build quality, the **Eicher 485** suits various field jobs like ploughing, hauling, and tilling with implements such as cultivators, planters, or trailers. Its design choices — clutch options, good lifting load, and multiple gears — provide flexibility and performance for Indian farmers.

TractorGyan ensures you get authentic, reliable, and updated information to make the right decision for your farm investment.
