

Mahindra 585 DI XP Plus: Power & Performance Unleashed

Are you looking for a reliable 50-HP class tractor? TractorGyan's review of the Mahindra 585 DI XP Plus offers a compelling look into why this machine is winning farmer confidence.

[Mahindra 585](#) DI XP Plus delivers 49.3 horsepower from its 4-cylinder ELS DI engine and runs at 2100 RPM. With a torque of 198 Nm and a smooth full constant-mesh transmission, it promises dependable performance in the field.

One of its biggest attractions is its build quality and design. It features a bow-type front axle for better balance and maneuverability, large tyres of size 14.9×28 for greater traction, and multi-disk oil-immersed brakes for reliable stopping power. The ADDC hydraulic system allows lifting heavier implements with ease.

TractorGyan lists its lifting capacity at 1800 kg, making it well suited for various implements like cultivators, rotavators, and ploughs. The warranty is generous too — 6 years (or 6000 hours) — helping reduce long-term maintenance costs.

On pricing, TractorGyan gives it a price range in India for 2025 as about ₹ 6.85 lakh to ₹ 7.15 lakh (on-road/ex-showroom based on state & taxes).

In conclusion, the Mahindra 585 DI XP Plus is a well-balanced tractor in its segment. From its engine specs to hydraulic capacity and warranty support, it's a strong contender for medium-scale farmers seeking reliable performance with manageable investment.
