

# Cabex India: Premier Manufacturer of Industrial Cable Accessories

As a trusted global supplier, Cabex India specializes in manufacturing explosion-proof brass cable glands, industrial connectors, and comprehensive earthing & lightning protection accessories. Our products serve critical infrastructure across regulated markets including Europe, the Middle East, and Australia.

Every component we manufacture meets rigorous international safety standards including IECEx, ATEX, UL, IS/IEC, and RoHS certifications—ensuring your operations stay compliant, safe, and reliable in even the most demanding environments.

# Comprehensive Product Range & Quality Assurance

## Industrial Cable Glands Portfolio

Our extensive range covers every application: unarmored cable glands, SWA (Steel Wire Armoured), AWA (Aluminum Wire Armoured), braid armoured, and steel tape armoured cable solutions.

**Essential Accessories:** Locknuts, earth tags, sealing washers, blanking plugs, and thread converters (Ex Reducers) provide complete installation flexibility.

All products feature full material traceability with third-party test certifications. Our IP68 rated components undergo rigorous testing for water ingress protection and mechanical durability—built to perform in the harshest conditions.

# Global Reach & Custom Solutions

## Worldwide Presence

Established partnerships across Europe, UK, Australia, Middle East, and Far East with leading EPC contractors and industrial clients.

## Bespoke Manufacturing

Custom thread sizes, specialized materials, laser marking, and project-specific adaptations tailored to your exact requirements.

## Dedicated Support

Comprehensive installation manuals, real-time technical assistance, and spare parts availability ensure seamless project execution.

## Proven Expertise

Trusted partner in hazardous and heavy-duty projects including oil & gas, metro rail, power generation, and construction sectors.

# Secure Your Industrial Connections with Cabex India

## Safety & Compliance

Premium cable gland solutions certified to global standards ensure workplace safety and regulatory compliance.

## Maximum Reliability

Minimize costly downtime with robust, rigorously tested accessories engineered for harsh environments.

## Tailored Partnership

Experience world-class quality, international standards, and personalized service for your specific needs.
