Slightly stretchy

OUR MISSION

Sleep well, rise stronger — this simple truth that is fundamental to health and wellbeing as nutrition and fitness.

At Selenightco, we are driven by one mission, to help create better days through better sleep.

We seek to create products that will promote quality rest - from thoughtful, intentional designs to thermoregulating fabrics that keeps you cool in our hot weather.

While comfort is our top priority, sustainability comes a close second. We hope generations after us will sleep well too - making the conscious decision to choose fabrics and processes that pollutes less and is more respectful to the environment.
